

TP 20OL

- Kommer i hele lengder opp til 8m, som gir færre skjøter.
- Et økonomisk alternativ, som er et godt alternativ uansett prosjekt.
- Rask og enkel montasje, som gjør at du raskere kan ferdigstille jobben.

Armat TP 20 OL er en takprofil, der topp- og bunnprofilen er ulike. Denne klassiske profilen passer like godt til bolighus, forretningsbygg, industribygg, som til landbruksbygg. En takprofil er utstyrt med vannlås som gir ekstra sikkerhet mot vanninntrenging under platen i sideoverlappet.

Passer for de fleste tak ned til 14 graders helling.

- Material varmforsinket lakkert stålplate
- Tykkelse 0,50 – 0,60 mm
- Vekt, kg/m² 4,80 – 5,76
- Dekkende bredde 1000 mm
- Lengde 1000–8000 mm
